# The Second Chinese-Finnish Seminar

AND

WORKSHOP ON MODERN TRENDS IN CLASSICAL ANALYSIS AND APPLICATIONS, UNIVERSITY OF TURKU, AUGUST 14, 2013

This one day meeting brings together mathematicians working on various topics close to Classical Analysis and Applications. The purpose of the meeting is to promote Classical Analysis and, in particular, Chinese-Finnish research projects in this area. A similar meeting was organized in 2012 (link to www-page). Some of the talks will deal with

- quasiconformal maps in Euclidean and Banach spaces
- hyperbolic type geometries
- differential equations, computational methods
