Instructions for returning answers

- Return your answers in written form (on paper or by email) to the lecturer.
- Deadline for returning is on the day before the exercise session at 14:00.
- On the first page or in the email message, write your name, student number, and which exercise problems you have solved.
- Return your answers so that I can take them with me. It is not enough to quickly show them in a notebook or on a screen.
- If you return by email, try to make sure that the files are not too big and that text is the right way and readable. In any case, try to write clearly and carefully.
