

CURRICULUM VITAE

Personal details and date of CV

Surname: Klén

First names: Riku Petteri

ORCID: 0000-0002-0982-8360

ResearcherID: G-4339-2016

Date of CV: 21.3.2023

Degrees

15.12.2014, Title of Docent, Mathematics, University of Turku, Turku, Finland

7.4.2009, Doctor of Philosophy, Mathematics, University of Turku, Turku, Finland

14.6.2007, Licentiate of Philosophy, Mathematics, University of Turku, Turku, Finland

26.3.2004, Master of Science, Mathematics, University of Turku, Turku, Finland

Current employment

1.3.2019-29.2.2024, Assistant Professor of Imaging Instrumentation and Detection Technologies, Turku PET Centre, University of Turku, Finland

1.1.2011-, Associate member of the Finnish Matriculation Examination Board, Ministry of Education and Culture (Finland)

Stage of academic research career on the four-stage (I–IV) research career model: III

Previous work experience

1.4.-30.6.2020, 1.10.2021-31.5.2022, AI and Data Scientist, Ai2Ai Ltd.

1.8.2016-28.2.2019, Postdoctoral researcher, Turku Centre for Biotechnology, University of Turku

1.1.2010-31.7.2016, Postdoctoral researcher, Department of Mathematics and Statistics, University of Turku, Finland

November 2015-May 2016, Postdoctoral researcher, Massey University, Auckland, New Zealand

January 2014-May 2014, Postdoctoral researcher, Massey University, Auckland, New Zealand

1.9.2009-31.12.2010, Postdoctoral researcher, Turku PET Centre, University of Turku and Åbo Akademi University, Finland

1.9.-31.12.2009, Postdoctoral researcher, Department of Mathematics and Statistics, University of Jyväskylä, Finland

1.8.-31.8.2009, Postdoctoral researcher, Department of Mathematics, University of Turku, Finland

1.1.-31.7.2009, Postdoctoral researcher, Turku PET Centre, University of Turku, Finland

1.1.2008-31.7.2009, Researcher trainee, Department of Mathematics, University of Turku, Finland

1.-31.10.2008, Assistant, Department of Mathematics, University of Turku, Finland

1.9.2005-31.12.2007, Researcher, Department of Mathematics, University of Turku, Finland

1.9.2004-31.8.2005, Researcher, Turku PET Centre, University of Turku, Finland

1.9.-30.11.2003, Lecturer, Department of Mathematics, University of Turku, Finland

1.5.-31.8.2003, Researcher trainee, Turku PET Centre, University of Turku, Finland

Most of the positions are part-time due to overlapping positions and family leaves. In addition to the aforementioned positions I have worked as short-term substitute mathematics teacher in high schools since 2004.

Career breaks

After completing my PhD I have been on family leaves approximately 24 months.

Research funding and grants

2020, Project funding, Hospital District of Southwest Finland, 30.000 euros, PIs: Juhani Knuuti, Riku Klén, Luis Juarez-Orozco

2020, Project funding, State Research Funding TUCH, 13.300 euros, PI: Riku Klén

2020-2022, Project funding, Hospital District of Southwest Finland, 25.178 euros, PI: Riku Klén

2021, Project funding, Finnish Cultural Foundation, 28.000 euros, PI: Riku Klén

2021, Project funding, Jenny and Antti Wihuri Foundation, 30.000 euros, PI: Riku Klén

2022, Project funding, BlueSkies, University of Turku, 30.000 euros, PI: Riku Klén

2022, Project funding, Finland-China Food and Health Network, University of Turku, 28.000 euros, PI: Riku Klén

Beneficiary of the following grants due to collaboration

2020-2022, Project funding, Erasmus+, Knowledge Alliances Erasmus, 119.233 euros, PI: University of Salamanca, participant in one of 9 consortium partners

2020, Finnish Foundation for Cardiovascular Research, 120.000 euros, PI: Juhani Knuuti

2021, Cancer Foundation Finland, 100.000 euros, PI: Jukka Kemppainen

2022-2026, Academy of Finland, 500.000 euros, PI: Juhani Knuuti

I have obtained travel grants in total for about 16.000 euros. I have helped Professors Matti Vuorinen, Peter Hästö, Laura Elo and Juhani Knuuti to prepare funding applications to various funding sources including Academy of Finland and European Research Council.

Research output

I have been involved in development of various methods including AHT risk calculator, Cell Type Extractor for Gene expression (CETEG), Likelihood Contrasts (LC), Stable Iterative Variable Selection (SIVS) and COvid-19 Disease Outcome Predictor (CODOP).

Research supervision and leadership experience

I have supervised 3 doctoral students as secondary supervisor: Xioahui Zhang (2013), Gendi Wang (2013) and Parisa Hariri (2018). I am supervisor of 5 doctoral candidates: Jani Lindén, Mehrad Mahmoudian, Mikael Niemi, Joonas Liedes and Seyed Hosseini. I have supervised 20 MSc students.

From 2017 until 2019 I acted as a team leader of Machine Learning and Imaging team at the Medical Bioinformatics Centre, Turku Centre for Biotechnology. The team consisted of 6 people including me: one post-poc researcher and 4 doctoral candidates.

From 2019 I have been PI of Instrumentation and Image Processing research group at Turku PET Centre. The group consists of 16 members: 6 postdoctoral researcher, 6 doctoral students and 4 undergraduate students.

From August 2019 I have been the director of MSc program Biomedical Imaging (BIMA) at University of Turku. From May 2022 I have been the head of the MSc degree programme in Biomedical Sciences.

Teaching merits

I have completed Pedagogical Studies (60 ECTS) 18.6.2004 at University of Turku, Faculty of Education.

I have lectured on over 50 courses at University of Turku (Finland), University of Helsinki (Finland), University of Oulu (Finland), and Massey University (New Zealand). I have planned and been responsible teacher in many of them. Two of the courses have been MOOCs (massive open online courses). I am an author of two books: Harjulehto-Klén-Koskenoja: Analyysiä reaaliluvuilla (~350 pages, textbook used in Finnish universities for the first year Mathematical Analysis) and Hariri-Klén-Vuorinen: Conformally Invariant Metrics and Quasiconformal Mappings (~500 pages, scientific textbook).

The courses I have lectured include:

Course name	Year	University	Scope
Statistical Data Analysis	2022	Turku	5 ECTS
Statistics in Biomedical Sciences (autumn)	2022	Turku	2 ECTS
Signal and Image Processing (one lecture)	2022	Turku	5 ECTS
Statistics in Biomedical Sciences (spring)	2022	Turku	2 ECTS
PET Basics (one lecture)	2022	Turku	2 ECTS
Jump to Medical Research in the UTU (one lecture)	2022	Turku	2 ECTS
App. of AI in Diagnostics, Drug Disc. and Imag. (one lecture)	2022	Turku	2 ECTS
Medical Imaging Project Work (co-organised)	2022	Turku	5 ECTS
BIMA Thesis Plan, Seminar and Practical Laboratory Work	2022	Turku	20 ECTS
Laboratory Internship to Learn Basic Research Methods...	2022	Turku	5-15 ECTS
PET Scientific Seminar	2022	Turku	1 ECTS
Bioimage informatics I (one week)	2021	Turku	5 ECTS
App. of AI in Diagnostics, Drug Disc. and Imag. (one lecture)	2021	Turku	2 ECTS
Modelling project (one group)	2021	Turku	8-12 ECTS
Capstone (one group)	2021	Turku	10 ECTS
Statistics in Biomedical Sciences	2021	Turku	2 ECTS
PET Basics (one lecture)	2021	Turku	2 ECTS
Medical Imaging Project Work (co-organised)	2021	Turku	5 ECTS
BIMA Thesis Plan, Seminar and Practical Laboratory Work	2021	Turku	20 ECTS
Laboratory Internship to Learn Basic Research Methods...	2021	Turku	5-15 ECTS
App. of AI in Diagnostics, Drug Disc. and Imag. (one lecture)	2020	Turku	2 ECTS
Bioimage informatics II (one week, Jobitti)	2020	Turku	5 ECTS
Medical Imaging Project Work (co-organised)	2020	Turku	5 ECTS
BIMA Thesis Plan, Seminar and Practical Laboratory Work	2020	Turku	20 ECTS
Laboratory Internship to Learn Basic Research Methods...	2020	Turku	5-15 ECTS
Machine learning seminar	2019	Turku	-
Bioimage informatics I (one week, Jobitti)	2019	Turku	5 ECTS
Modelling project (one group)	2019	Turku	8-12 ECTS
JoMA course Geometry and programming (co-organised)	2019	Oulu	2 ECTS
Bioinformatics Journal Club (co-organised)	2019	Turku	-
Geometry and Programming (co-organised)	2018	Helsinki	-
Systems biology (one lecture)	2018	Turku	4 ECTS
EDUFI Winter school (one day)	2018	Helsinki	-
Geometry and Programming (co-organised)	2018	Turku	-
Statistical Analysis of Biochemical (co-organised)	2017	Turku	1 ECTS

Geometry and Programming (co-organised)	2017	Turku	-
Survival Analysis and Cox Model	2017	Turku	2 ECTS
Algebraic Topology	2016	Massey	5 ECTS
Didactical thesis project (co-organised)	2015	Turku	-
Mathematical software in teaching	2015	Turku	5 ECTS
Mathematical demonstrations (co-organised)	2015	Turku	5 ECTS
Modelling project (one group)	2015	Turku	10 ECTS
Scientific computing I	2015	Turku	4 ECTS
Mathematical software in teaching	2014	Turku	5 ECTS
Mathematical demonstrations (co-organised)	2014	Turku	5 ECTS
Mathematical software in teaching	2013	Turku	5 ECTS
Mathematical teaching material	2013	Turku	2 ECTS
Mathematical software in teaching	2012	Turku	5 ECTS
Mathematical demonstrations (co-organised)	2012	Turku	5 ECTS
Mathematical software in teaching	2011	Turku	5 ECTS
Modelling project (one group)	2011	Turku	10 ECTS
Mathematical software in teaching	2010	Turku	5 ECTS
Seminar for mathematics teachers	2010	Turku	2 ECTS

During years 2010-2014 I have organised analysis seminar at University of Turku with ~120 speakers from Finland and abroad. In 2018-2019 I have organised two seminars at Turku Centre for Biotechnology and in 2019-2020 a seminar at Turku PET Centre. I am responsible organiser of Turku PET Centre scientific seminar series.

The Knowledge Alliances Erasmus+ funding was received for the development of teaching.

Awards and honours

Honorable Mention in International Mathematics Competition for University Students 2004 in Skopje, Macedonia.

Other key academic merits

Memberships at University of Turku. Member of Biomedical Science steering group from August 2019 and leader since May 2022. Member of BIMA steering group from August 2019. Member of international basic education committee and steering group of basic education and continuous learning. Member in two doctoral dissertation committees. Member of Scholarship Committee for International Degree Programmes. Member of Future technologies and digital society executive committee.

Member in organising committee of Turku PET Symposium in 2022. Volunteer in Turku PET Symposium three times. One of the two main organisers of International Conference on Complex Analysis and Related Topics, The 12th Romanian - Finnish Seminar (~120 mainly international participants), 16.-21.8.2009, secretary of organizing committee.

Referee of over 60 scientific articles including Med. Phys. Biol., PLOS ONE, Trans. Amer. Math. Soc. and Ann. Acad. Sci. Fenn. Math. Written 21 written reviews for Mathematical Reviews of the American Mathematical Society.

Guest editor of special issue "Methods, Applications and Developments in Positron Emission Tomography" of journal Applied Sciences, and special issue "Deep Learning in Cardiology" of journal Diagnostics.

Invited speaker in Finnish Mathematical Days 2010, 4-5.1.2010, Jyväskylä, Finland.

Scientific, societal impact and other merits

My work has been cited 479 times in Web of Science (h-index 12), 571 times in Scopus (h-index 13), 307 times in MathSciNet (h-index 10) and 969 times in Google scholar (h-index 18).

Impact of research based on Web of Science as publications and citations.

Associate member of the Finnish Matriculation Examination Board since 2011. Member of exam composer team for 7 years.

Participated biannually in national television broadcast *Abitreenit* as an expert in Mathematics since 2017 (11 times, 1.5 hours live broadcast).

Military service as conscript at the Utti Jaeger Regiment (1999, paratrooper) and at Air Force Academy (1999–2000, fighter pilot).
